

Disclaimers

Readers are cautioned that certain statements made by Loews Corporation and its subsidiaries relating to environmental, social and governance (“ESG”) matters, including those included in their sustainability reports or on their websites (such statements, “ESG Statements”), may constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (the “Act”). Forward-looking statements include any statement that does not directly relate to any historical or current fact. Forward-looking statements may project, indicate or imply future results, events, performance or achievements, and such statements may contain the words “expect,” “intend,” “plan,” “anticipate,” “estimate,” “believe,” “will be,” “will continue,” “will likely result,” and similar expressions. In addition, any statement concerning future performance, ongoing strategies or prospects, and possible actions taken by Loews Corporation or its subsidiaries are also forward-looking statements.

Forward-looking statements are based on current expectations and projections about future events and are inherently subject to a variety of risks and uncertainties, many of which are beyond Loews Corporation’s or its subsidiaries’ control, that could cause actual results to differ materially from those anticipated or projected. Developments in any of the risks or uncertainties facing Loews Corporation or its subsidiaries, including those described in risk factors included in annual and quarterly reports and other filings with the Securities and Exchange Commission (“SEC”) made by Loews Corporation and its subsidiaries, could cause results to differ materially from results that have been or may be anticipated or projected. Given these risks and uncertainties, readers should not place undue reliance on forward-looking statements. Forward-looking statements speak only as of the date they are made and Loews Corporation and its subsidiaries expressly disclaim any obligation or undertaking to update these statements to reflect any change in expectations or beliefs or any change in events, conditions or circumstances on which any forward-looking statement is based.

The inclusion or absence of information in Loews Corporation’s or its subsidiaries’ ESG Statements should not be construed to represent any belief regarding the materiality or financial impact of that information. ESG Statements may be based on expectations and assumptions that are necessarily uncertain and may be prone to error or subject to misinterpretation given the long timelines involved and the lack of an established single approach to identifying, measuring and reporting on many ESG matters. Calculations and statistics included in ESG Statements may be based on historical estimates, assumptions and projections and therefore subject to change. Loews Corporation’s and its subsidiaries’ ESG Statements have not been externally assured or verified by independent third parties.

Loews Corporation’s and its subsidiaries’ ESG Statements may contain links to other internet sites or references to third parties. Such links or references are not incorporated by reference into the applicable ESG Statement and neither Loews Corporation nor its subsidiaries can provide any assurance as to their accuracy.
